Full Stack Web Developer

+91-9003981071, sathiya.4046@gmail.com

No.11, Sanmuga Nagar, Thanjavur-613006

PROFESSIONAL SUMMARY

With 8 years of various experience both in India and abroad, I am passionate about continuous learning and developing personal skills. My expertise lies in problem-solving and collaborating within team-oriented environments. Currently focused on web development, I am eager to contribute to the success of growth-driven companies by leveraging my skills and enthusiasm for learning and innovation.
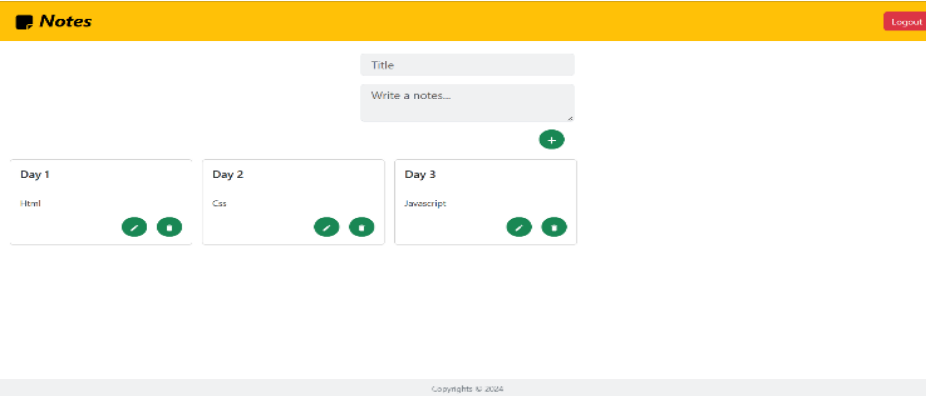

PROJECTS (Apr 2024 - Dec 2024)

1. Twitter Clone

Developed a MERN complete full stack social media website, user can do crud operation with the help of tanstack, Using material UI for style our website

2. Notes App

Developed a full-stack Notes Application that allows users to create, read, update, and delete notes. This app features user authentication, CRUD operations, and data persistence using MongoDB.
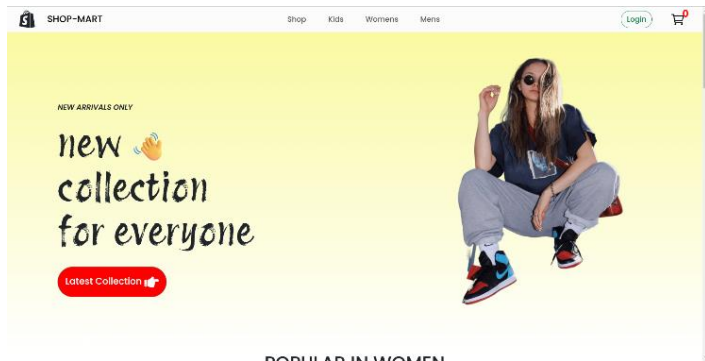

3. Netflix-Clone

Developed a responsive Netflix Clone web application using ReactJS and Bootstrap, replicating the core features of Netflix including movie browsing and interactive UI elements.

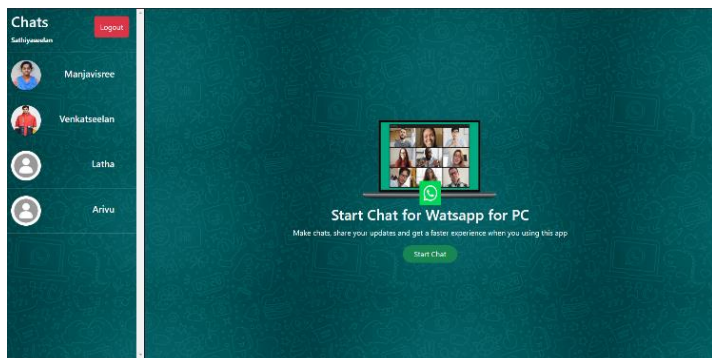

4. E-commerce

Developed a full-stack Ecommerce web application enabling users to browse, select, and purchase products online. User authentication while ensuring a smooth, responsive, and secure shopping experience.

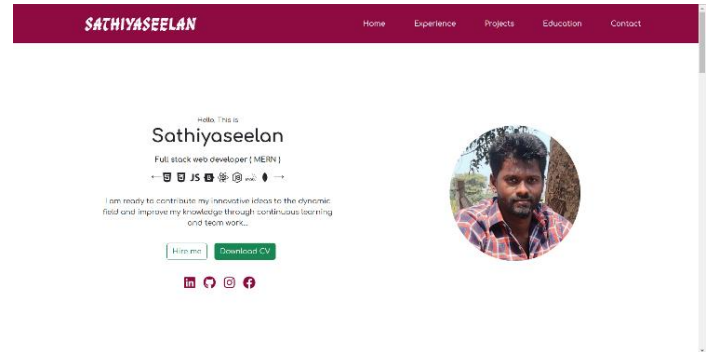

5. Chat-App

Developed a real-time, full-stack chat application that allows users to communicate via direct messaging. Utilized WebSocket's (Socket.io) for real-time messaging functionality and employed MongoDB for storing chat history and user data.

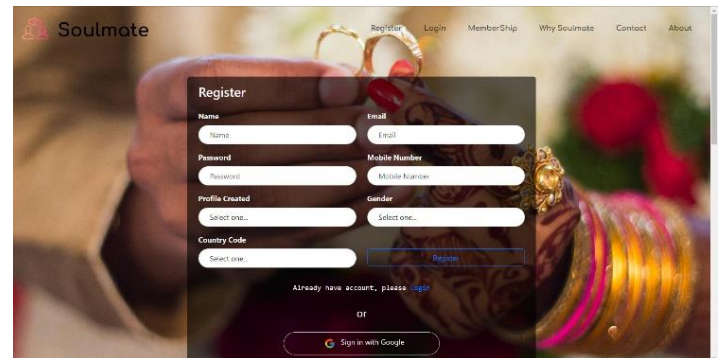

6. Portfolio

Created a personal portfolio website to showcase my skills, projects and experiences. Designed with a focus on clean, responsive design and user experience. The website serves as a digital resume to present my work.

7. Matrimony App

Developed a matrimony web application that allows users to create profiles using OAuth for user authentication and MongoDB for data storage. Even though the project isn't complete, its update in future
